Junior Senior Prom Of 1954

May 7th, 1954, was the date of our Junior-Senior Banquet and Prom. We chose as our theme,--"In An Old-Fashioned Garden." We worked long and hard making paper flowers of all sizes and colors. We made a wishing well with a reflection effect created by mirrors. We had a gray garden wall and lots of pine boughs. We were very proud of the beautiful effect it created when we had finished. The tables were decorated with light green satin streamers and red roses. Dark green napkins and pink programs and candles carried out our theme effectively.

After dinner, several short talks and musical numbers were presented. This will always be remembered as one of the highlights of the year.

Richard Wahlquist....."The quiet kind whose nature never varies.....he delights in doing chemistry experiments with Bobby...plays basketball....has a collection of loud sport shirts to go with his crew cut.

Arthur Jensen...."You take care of the school--I'm leaving"..makes a habit of coming to school late....the girls are his least interest.....wants to be a television technician or repairman.

Class Will

We, the Senior Class of 1955, of the Village of Askov, County of Pine, State of Minnesota, having strong backs and weak minds, poor memories and very little common sense, do make, publish, pronounce, and declare this our last will and testament in manner and form as follows:

I, Barbara Lee, "Barb" Ambers, will my quiet Sunday afternoons in the wilds of the nursery to any Junior girl that has two and a half hours to spend.

I, Edward Olaf, "Bugs" Berglund, will my nail clipper to Roger Newman so he can do a better job of carving the desks than I did.

I, Deanna Ruth Budd, will my ability to get along with my underclassmen to Greta Christensen.

I, Elsie Marianne, "Audie" Christensen, will my interest in Sandstone to Esther Sandahl so that she will always have an excuse to go down there.

I, Frances Irene, "Franie" Dahlgren, will my guitar to Eleanor so that she has something to occupy her time between different boyfriends.

I, James Patrick, "Pat" Galvin, will my regular hand outs by the cooks to Donald Anderson in hopes that he will put on some weight before next basketball season. My position on the baseball team goes to Shirley Thompson.

I, Barbara Florence, "Barb" Hanson, will my athletic physique to Bob Walner so that he can go out for cheerleading next year.

I, William James, "Bill" Haynes, will my traveling pass on the railroad to Eddie Schrader so that if he decides to take a trip it won't be so expensive.

I, Arthur Juan, "Art" Jensen, will my two cars to Allen Ecklund so he will be prepared in case of an accident or an extra heavy date.

I, Carl Raymond Jensen will my fondness for the opposite sex to Ernie Bade.

I, Sylvia Agnes, "Sylvester" Jensen, will my job as telephone operator to Sheila Morse so that she will know all of the latest gossip.

I, Barbara Jean, "Babs" Johnson, will my blonde hair to Nancy Pearson in hopes that the Bruno water will bring back its natural color.

I, Cerald, "Jerry" Knapp, will my ability to sing to Gail Nielsen and my love for a polka, although she doesn't need it.

I, Delores Genevieve, "De" Krueger, will my constant giggle to Philip Chalmers to take the monotony out of class.

I, Leslie Alan, "Luce" Lund, will my small feet to Paul Morgensen so that he can get his untangled before next basketball season.

I, Darrell Allen, "Mads" Madsen, will my ability to always have a girl on the string to Robert Sostak.

I, Jack Lee, "Whiskers" McCullough, will my ability to sleep in class to Richard Molgaard, although he really doesn't need it.

I, Duane Lawrence, "Frenchie" Monette, will my one tracked mind while arguing to Suzanne Carroll so that next year's Social class will be as exciting as this year's.

I, Irene Clara, "Rene" Passow, will my ability to keep one guy on the string to Barbara Krogh.

I, Paul Richard, "Willie" Petersen, will my janitor job to Gene Abrahamsen, so that he can afford two show tickets at once.

I, Joy Ann Plesner, will my luck in having a car when I want it to Loretta Wermerskirchen.

I, Freida Rasmussen, will my quiet manner to Helga so she will settle down before she graduates.

I, Beverly Florence, "Bev" Sebald, will my ability to get along with all senior boys to Mavis Jensen.

I, Timothy James, "Tim" Sexton, will my quiet Saturday nights at home (once or twice a year) to Jane Hansen.

I, Robert Eugene, "Bobby" Thomsen, will my basketball suit to Nola so there will again be a Thomsen on the team. To Duane Lund goes my crew cut.

I, Helen Christine Torell, refuse to leave anything because I didn't get anything out of school myself.

I, Richard Palmer, "Dick" Wahlquist, will my position on the basketball team to Dale Clausen. My pink cordoroy pants go to Lee Sorensen so there will be someone to brighten up the room a bit.

I, Mardelle Jean, Wessman, will my ability to take notes in class to Bob Passow so the rest of the class has something to study from before a test.

We, the senior class, will to all of the other classes our love for our teachers, our ability to get work in on time, and our high marks in hopes that it will lessen their worries.

Jointly and severally, to the faculty we will all of the pain, sorrow and agony of seeing this honorable, brilliant, and remarkable class leave the haunts of this old school.

Class Prophecy

Let's take a journey ten years into the future to see what the graduating class of 1955 might be doing then. You'll need to bring along nothing more than your imaginations, so all aboard for 1965.

Here we are in Askov on a warm sunny day. What a busy town, and how it has grown. The first thing that is called to our attention is the new hospital. We have more time than money so let's stop and visit our friend Freida, who for the past years has advanced to the position of superintendant of nurses. Well, we had a nice visit with Freida, but because of her busy schedule we couldn't stay long.

As we come off the hospital grounds, a big billboard catches our eye. It says in big letters, "River Hill Speedway," stating that Darrell Madsen, the speed champion will be performing today. We can't miss this. It's really not surprising to see him in a place like this. He must have gotten his practice during noon hours when he went to high school. We talked with Darrell after the show and later went back to town as we wanted to get some clothes that met with the new 1965 styles.

A fashionable little clothing store meets our eyes. "Bev's Apparel". The name sounds familiar doesn't it? Let's go in and investigate. You guessed it. There stands Beverly by a long rack of skirts. She seems to know just what looks best on us. Well we feel better now and we look a little more up to date. But these clothes are just like the ones Beverly wore to school. Her fashions were always ahead of Askov fashions we thought. After going on such a shopping spree our funds are getting low. We have some travelers checks but I doubt they are worth anything as they are of course, ten years old. So here we are in Sandstone in the bank trying to get them renewed, and here is Elsie to wait on us. She is now working in the bank--part time that is. The rest of her time is pretty well taken up at home. Raising kids is a big job--especially when you have six of them.

In a television studio we find a big show being produced, called the "Monette Comedy Hour". Duane, the master of ceremonies has become quite a celebrity these days, especially with the girls. His guest star is Paul Petersen, who has taken the place of George Gobel. It seems Paul's rendition of "Herman the Goat" and "Albert and His Pet Flea" amuses his audiences as much as it amused us when he gave it in school.

It would be fun to know how many of our seniors of 1955 stayed close to home. So let's spend some time in Pine County before we journey on farther with our imaginations. Let's visit some of our northern towns. Speaking of towns, we are surprised to see Sextonville, formerly known as Kerrick, until Tim Sexton took over. Tim now runs the grocery store, a feed store, a lumber mill and a brewery. Besides this, he is the justice of the peace, the president of the Sextonville Chamber of Commerce and last but not least the mayor of the town.

On a large farm called the Berglund Contour Plowing Experimental Farm, we find Edward, who has devoted his time to experimenting with his new plows. He has gone into town this afternoon to take in the Bruno Rodeo and Stock Show. Let's go in and see it too.

Well, we did, and guess who we found managing it? Delores Krueger. She's doing everything from trick riding to bedding horses.

We also ran into another member of the senior class. Deanna Budd also stayed in Bruno to spend the pay check of a school bus driver. Besides four children of her own she has an additional twenty as she runs a day nursery school. She's doing a very nice job of it too.

A little farther north is a very cozy little restaurant. Inside we see Helen and we also meet her husband. Their little restaurant is called the North Shore Rendevous. It is a favorite eating place of tourists. While in the restaurant, we hear a familiar voice. It's the voice of Frances Dahlgren, and it's coming from the radio station, KDAL. She is known by the name of, not "Famous", but "Famouser".

If your imaginations are still with us we will go out of our state and head for the west. Here we find Patrick in San Francisco behind a big mahogany desk. His present work is writing articles for the "Be Healthy" magazine. He is also writing a book on unsuccessful dieting, taken from his own experiences.

Sylvia is teaching physical education in one of the prominent schools in the city. She is very proud of her many trophies, especially the one she received when she and her students gave a gymnastic exhibition in Helsinki.

We find Barbara Johnson in Albuquerque, New Mexico, where she is dancing all her cares away. She is one of the top instructors at the Arthur Murray Studios. She teaches the Lindy, which has been revived and made popular again.

In Galveston, Texas we find Bobby Thomsen, who has a taxi service there. to our surprise he is somewhat taller. No, I guess he's not, I see a stack of Sears Roebuck catalogs under him. In his spare time he coaches the family basketball team. His five boys are wonderful players and his four girls make darling cheerleaders.

Also in Texas is another one of the seniors of 1955. Irene who is cooking for an oil crew out on the Texas plains. Among the men in the crew is her husband. It looks as if she's leading a very exciting life.

Gerry Knapp has gotten to be a very familiar name especially with the lover of country music. Here he is in Tennessee, the star of the Grand Ole Opry. He has Webb Pierce beat by a long shot.

In a fashionable beauty salon in New York City we find Joy who has monopolized the cosmetic industry. She specializes in the mascara and lipstick field. Her new Kurlash mascara that you can't cry off and her new Glow in the dark lipstick that you can't kiss off has really made a hit with the women in America.

Mardelle who is also out east is in a big brick school building behind a pair of hornrimmed spectacles. She goes to school here, but this time as a teacher, teaching fifth grade arithmetic. She's doing well at it too.

Barbara Ambers lives in a great big house with black shutters all alone except for her many cats which she cares for. It seems she prefers cats to men. She is also busy writing a novel called "Forever Ambers".

Barbara Hanson is really seeing the world these days. She is an airline hostess for an international airways. But from the looks of it she won't be there long as she is engaged to one of the pilots.

Arthur Jensen is a very busy man. He's busy studying to be a lawyer. His good background in law from Askov High School is helping him tremendously. Art should have no trouble convincing any female jurors he might run into, because he has turned into quite a ladie's man.

In Rochester we discover Jack has a very suitable job. He drives an ambulance for the city hospital. Thanks to his ability to take any curve at seventy miles per hour and drive through anything, he has saved many lives.

Carl Jensen has a very profitable trucking line. He hauls cattle for central Minnesota farmers. In fact he's known as the biggest bull shipper for miles around.

Back in Askov we find Richard happily married and situated on a comfortable little farm northeast of town. He's taking his time spending his millions he made on some chemical invention for gas concerns. I guess there was at least one person who got something out of chemistry class.

We find Leslie with his badge and billy club patrolling the streets of Askov seeing that the laws are obeyed. Since he has become the village cop of Askov, there has been considerable less "slewing" on corners.

There is only one senior left---we can't seem to locate him anywhere. But as we mail a letter to the folks back home, we notice the flashy new postage stamp while putting it on the envelope. The man on the stamp is none other that -----you guessed it----Bill Haynes.

We are wondering just how accurate our imaginations could be, but the only thing we can do is wait ten years and find out. Anyway, it's been fun, don't you think??
